SUMMARY

Software Developer experienced in building scalable backend applications using **Python, Django, and Django REST Framework**. Skilled in developing **REST APIs, authentication, RBAC, database systems, AI integrations, chatbot solutions, and production-ready backend services**. Experienced with **PostgreSQL, MySQL, Redis, Celery, JWT, Docker, Git, and API development**, with a focus on building secure, reliable, and high-performance software systems.

EXPERIENCE

Software Developer Intern

Feb 2026 – Present

WhatBytes

- Developed and maintained **multi-tenant SaaS backends** using **Python, Django, and Django REST Framework**, implementing secure REST APIs, **JWT authentication, RBAC, permissions, custom middleware, serializers, and validation**.
- Developed a **FinTech AI chatbot** for financial-domain conversations, implementing conversational workflows, AI-powered responses, domain-specific prompts, and backend APIs for reliable chatbot interactions.
- Designed and optimized **database schemas, relationships, migrations, and queries**, while implementing **rate limiting, centralized error handling, logging, audit trails, API testing, and security improvements**.

Backend Developer

May 2025 – Jan 2026

Chalo Chale

- Developed and maintained **RESTful APIs** using **Python, Django, and Django REST Framework**, supporting 10K+ API requests.
- Implemented **custom Django middleware** for authentication, logging, and request/response processing, while integrating backend services with frontend applications.
- Improved backend performance by optimizing **SQL/MySQL queries** and implemented **JWT authentication and Role-Based Access Control (RBAC)** for secure application communication.

PROJECTS

EditDocsNow – AI-Powered PDF Processing Platform

Tech: Django, Django REST Framework, Python, React, Vite, Celery, Redis, PyMuPDF, OCR

- Built a full-stack **PDF processing platform** supporting document upload, PDF editing, text extraction, OCR, document conversion, and secure file processing.
- Developed scalable **Django REST APIs** with authentication, validation, secure file handling, centralized error handling, and document-processing workflows.
- Implemented **Celery + Redis** for long-running PDF/OCR jobs and deployed the application using **Vercel and Render**.

Desktop AI Assistant

Tech: Python, SpeechRecognition, Pyttsx3, PyAutoGUI

- Built a Python-based **voice-controlled desktop automation assistant** capable of executing system commands and automating repetitive tasks.
- Designed modular command execution and voice-processing components for **task automation and hands-free interaction**.

SKILLS

Languages

Python, JavaScript, TypeScript, C

Backend

Django, Django REST Framework (DRF), FastAPI, REST APIs, AI Integrations

Security

JWT Authentication, RBAC, Permissions, Middleware, Rate Limiting

Databases

PostgreSQL, MySQL, SQL

Tools

Docker, Git, GitHub, Redis, Celery, Render, Vercel, Postman, Swagger/OpenAPI

EDUCATION

Master of Computer Applications

2023 – 2025

Galgotias College of Engineering and Technology

Bachelor of Science (Mathematics)

2018 – 2021

Shri Lal Bahadur Shastri Degree College

CERTIFICATIONS

- Amazon Web Services – Introduction to Artificial Intelligence
- CETPA Infotech – Data Science Industrial Visit
- Python (Basic) – HackerRank
