

Aman Srivastav

Software Developer — Python / Django / REST APIs

amancode2000@gmail.com +91 7068118139 github.com/Amanrajat linkedin.com/in/aman-srivastav

SUMMARY

Backend-focused Software Developer building scalable production APIs, database-backed services and AI-powered applications. Specializes in Python, Django and Django REST Framework — REST API design, authentication/authorization, and full-stack products end to end, including a live PDF-processing platform in production.

EXPERIENCE

WhatBytes — Software Developer

Present

Venture studio building production software and digital products for startups and founders

- Building and maintaining production software as part of the engineering team.
- Working across backend services and API development for client products.

Chalo Chale — Backend Developer

May 2025 – Jan 2026

- Built RESTful APIs using Python, Django and Django REST Framework serving 10K+ API requests.
- Developed custom Django middleware for authentication, logging, and request/response handling.
- Optimized SQL/MySQL queries, improving average API response time by approximately 30%.
- Implemented JWT authentication and role-based access control (RBAC); coordinated with frontend teams on API contracts.

PROJECTS

EditDocsNow — Live PDF productivity platform

Live Product

Next.js, Django REST Framework, PyMuPDF, PostgreSQL, OCR

- Browser-based PDF editing, merge/split/organize, compression, conversion and OCR — 20+ tools live in production.

Finance Management Backend

Django REST Framework, JWT, RBAC, PostgreSQL, Swagger

- RBAC-secured financial records API with three-tier roles, per-user isolation, filtering and Swagger docs.

PDF Resume Editor

Django, DRF, PyMuPDF, PDF.js

- Click-to-edit PDF resume tool with text-block extraction, live style edits and server-side regeneration.

AI Resume Tailoring Chatbot

Django, DRF, React, LLM Integration

- Chat-based resume tailoring against a job description, exporting ATS-ready PDF/DOCX/TXT.

SKILLS

Languages: Python, JavaScript, TypeScript, C, C++

Database: PostgreSQL, MySQL, SQL, SQLite

Backend: Django, Django REST Framework, REST APIs, Django Channels

Security: JWT, RBAC, CORS, Auth & Middleware

Frontend: React, Next.js, Redux, Tailwind CSS

Tools: Git, GitHub, Postman, Swagger / OpenAPI
